Water Heater | Room Heater | Immersion heater | Dry Iron

About RR Global

RR Global, a USD 1.25 billion conglomerate has moulded its success on innovation. Since the foundation of the brand, its architects opted that innovation is the key to success of every product in the brand. It was a really courageous decision because at that point in time categories like wires and cables were highly commoditized. This optimistic development led to the creation of a brand - RR Kabel, a name which is admired worldwide with existence over 90+ countries across the globe.

Presently the company is ranked amongst the top three retail wire manufacturers across the nation. It is also the largest consumer of copper in India, an achievement which no one would have imagined a cable and wire company to be capable of and that is the reason they are preferred by clients who are some of the largest copper manufacturer in the country.

RR Global takes honour in establishing 9 companies and global offices, primarily in the U.A.E and Bangladesh. In their endeavour to set international benchmarks, RR Kabel has received 19 international accreditations. They are the first in India to have BASEC (U.K.), UL (U.S.A.), VDE (Germany), among others for its wide range of cables including ISO 50001 and ISO 14001.

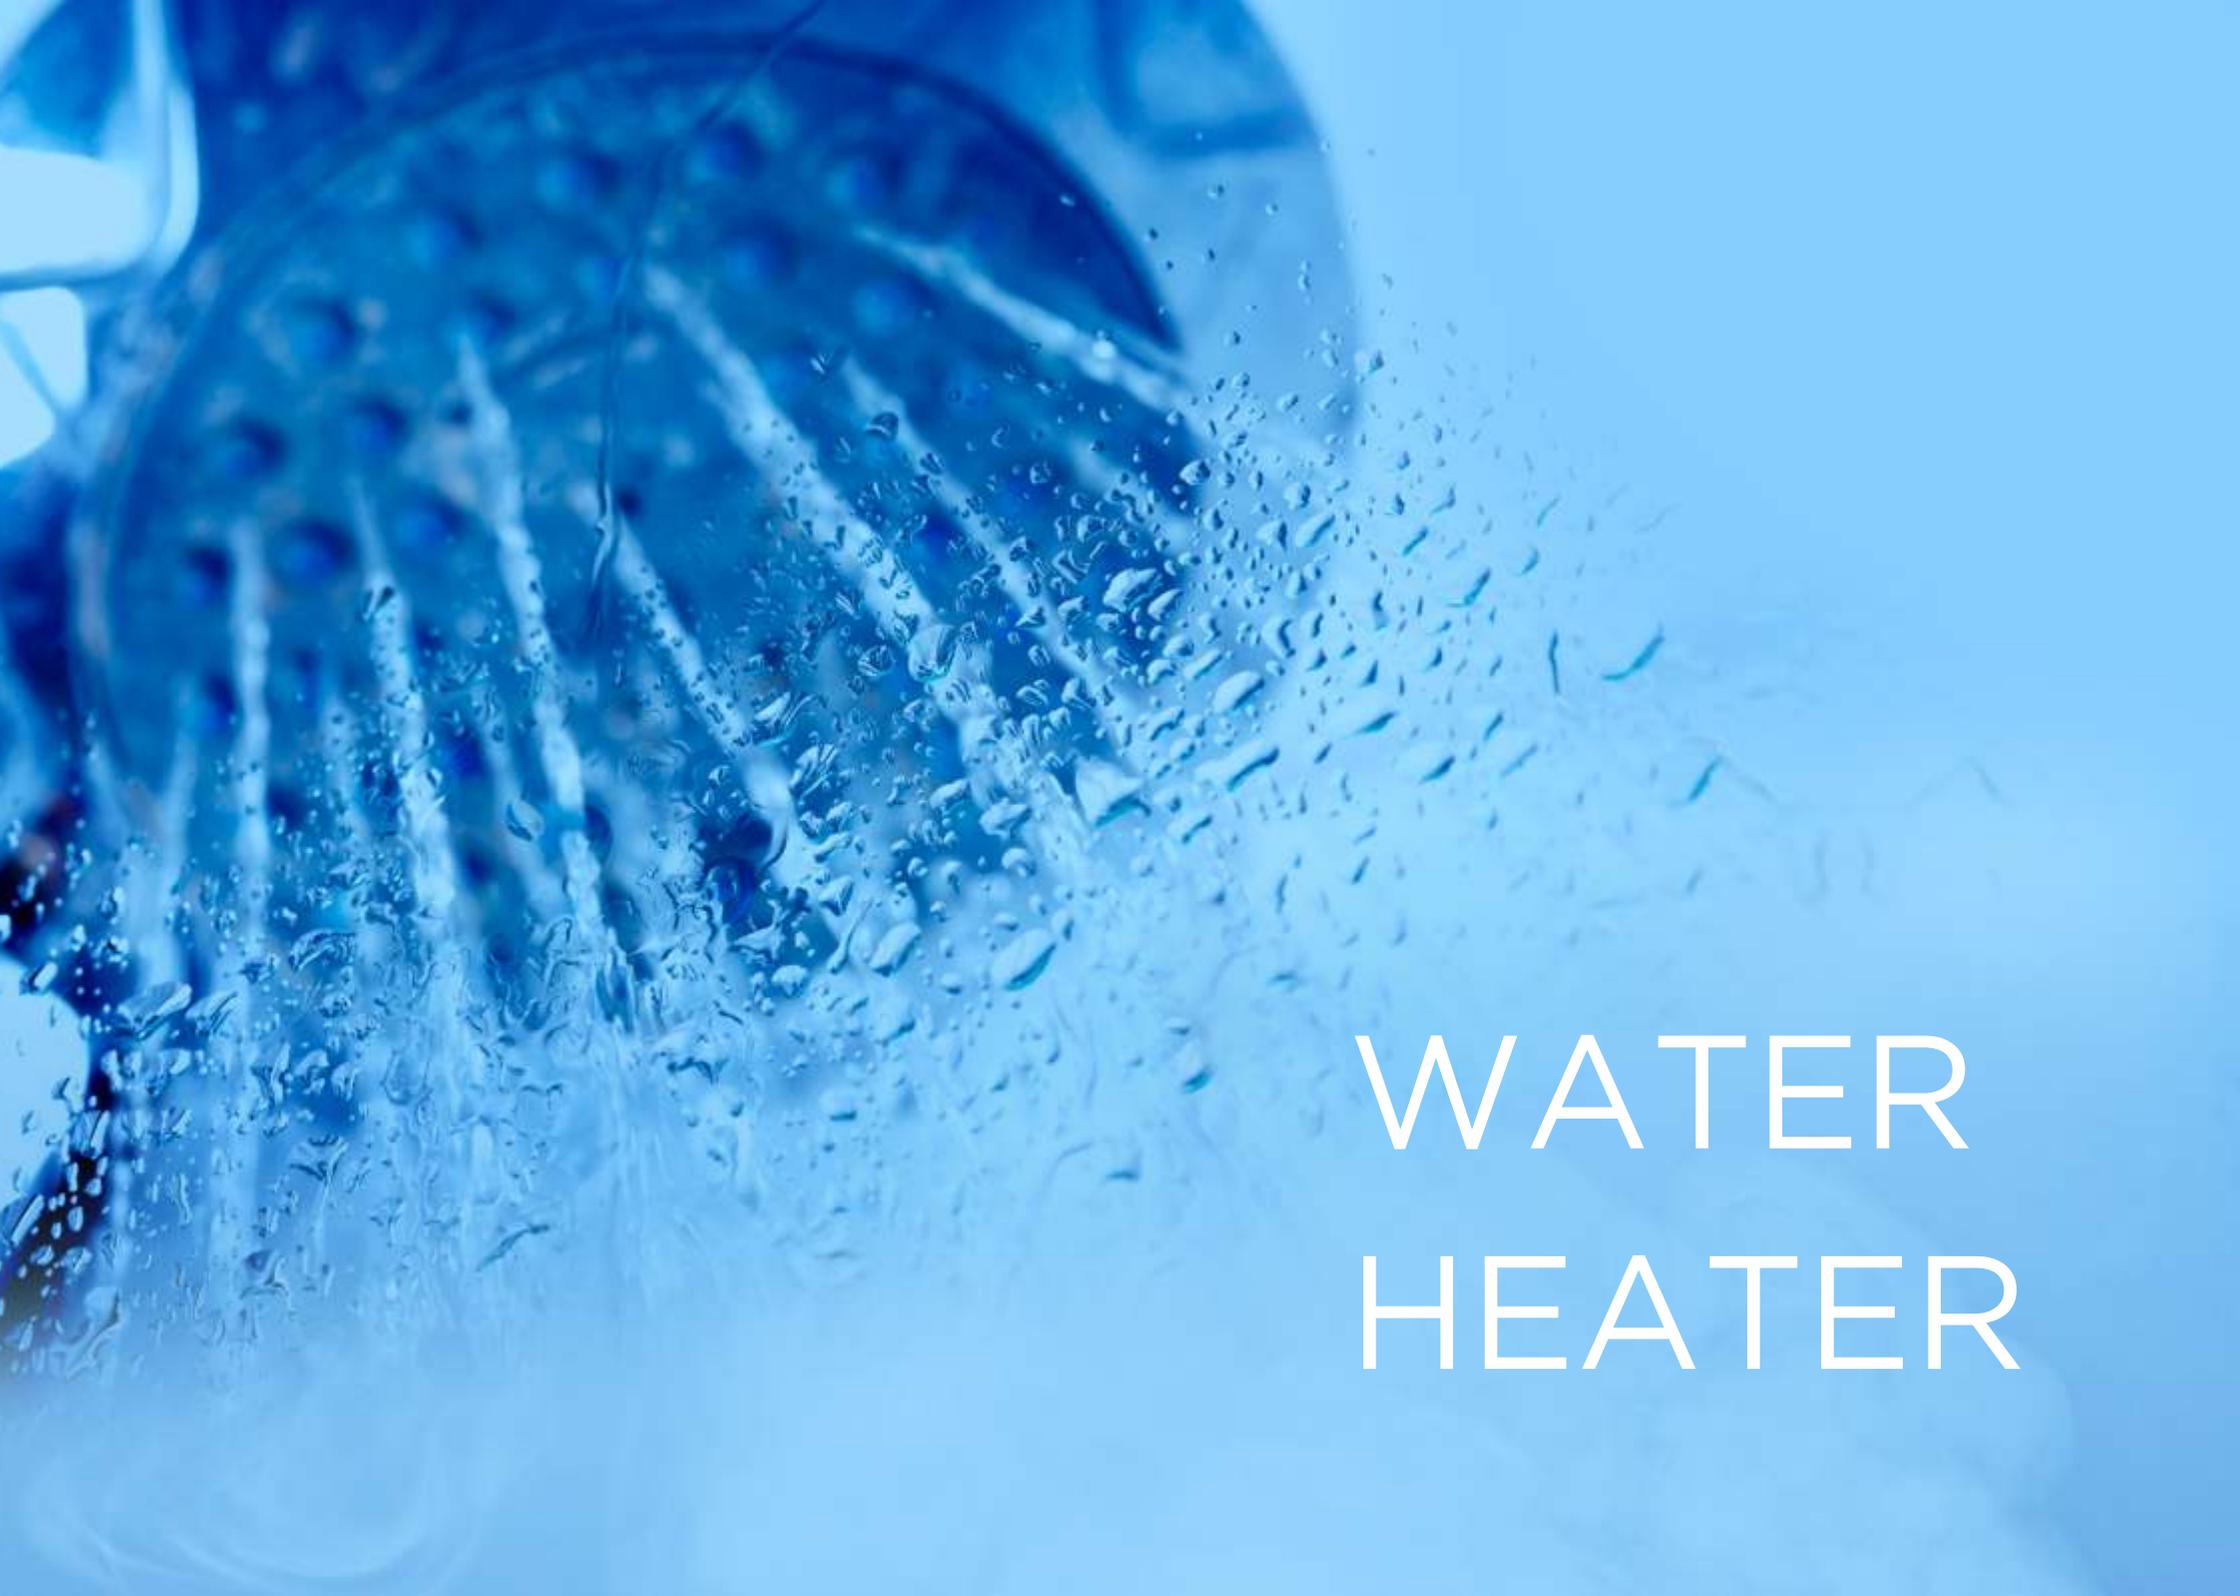

Across the course of four decades, their impulse towards innovation to achieve success and hard work steered them to earn phenomenal recognition with RR Kabel becoming the desired choice for wires and cables not only in India but also on a global platform.

RR Global India focusses on cutting edge technology and research to enhance efficiency, reliability, and safe conduction of electricity. This in turn supported the core of the company's engineering endeavour which is to guarantee safe environments everywhere- offices, commercial spaces, industrial plants, and residences.

Comfort manifests in not just the big things, but in the small, everyday essentials that help life better. Choose from a wide range of Water Heaters, Room Heaters & Irons, each guaranteed for quality performance, tested by time.

Backed by efficient and earnest customer service, we constantly strive towards coming up with products that help make life comfortable.

A close-up, artistic photograph of a water heater's internal components, showing a circular vent or filter with a mesh screen. The image is heavily saturated with a blue color and features numerous water droplets and splashes, creating a dynamic and textured appearance. The lighting is soft, highlighting the metallic surfaces and the movement of the water.

WATER HEATER

STORAGE WATER HEATER - SUPREMUS+

15 Ltr | 25 Ltr

- 4 star bee rating - for low power consumption
- Adjustable temperature knob for convenience
- Suitable for pressure pumps and high rise buildings
- Puf insulation for efficient power consumption
- Auto cut off provided for safety
- Vitreous enameled glass line tank for long life

Voltage	Type	Frequency	Wattage	Rated Pressure

INSTANT WATER HEATER

Disclaimer : Due to continuous product improvements, Product Image shown may vary from actual product.

INSTANT WATER HEATER - RAVISH

03 Ltr

Fire retardant power cord

- Fire retardant power cord for maximum safety
- Weldless SS 304 L tank that enhances resistance to corrosion ensuring long tank life
- Rust and shock proof outer body
- Capillary thermostat for higher efficiency
- Leakage proof integrated pressure valve
- Anti Siphon protection designed to prevent any backflow of water and protect the heating element from dry heating
- Disc type thermal cut-out for higher efficiency

Voltage	Type	Frequency	Wattage	Rated Pressure
230V	Instant	50Hz	3 KW	6.5 Bar

Weldless SS 304 tank

Rust and shock proof outer body

GAS WATER HEATER

Disclaimer : Due to continuous product improvements, Product Image shown may vary from actual product.

GAS WATER HEATER - LPG/PNG

06 Ltr

- Better safety during gas flow with single solenoid valve
- Secondary automatic overheat protection Thermal cutout
- Flame failure device
- Gas leakage protection
- Mesh on water inlet, gas inlet and chimney to avoid scaling, blockage, dry heating and impurities
- Variable pressure Compatibility Suitable for low and high water pressure (upto 8 bar)
- Safety lock To control the ON/OFF operation
- ISI Certified product For safety and quality

Rated Capacity	Rated Heat Input	Frequency	Rated Pressure
6 L/min	10kW	50Hz	LPG- 2900 Pa / PNG-2000 Pa

Copper heat Exchanger
Tin-plated for faster heating

3-Row Burner
with double ignition

IMMERSION WATER HEATER

Disclaimer : Due to continuous product improvements, Product Image shown may vary from actual product.

IMMERSION WATER HEATER

1.0 KW | 1.5 KW

- Shock proof handle - complete protection against electric shock
- Water Proof Handle
- Instant heating
- Water level indicator

Voltage	230V
Type	Immersion Heater
Frequency	50Hz
Wattage	1.0 KW / 1.5 KW

- Shock proof bakelite handle
- Power Indicator
- Instant Heating
- Water Level Indicator
- Energy efficient

Voltage	230V
Type	Immersion Heater
Frequency	50Hz
Wattage	1.0 KW / 1.5 KW

Heavy copper heating element

Nickel Plating for Corrosion Resistance

Plastic Shockproof waterproof handle

Neon Indicator

Sturdy Bucket Clip

Replacement Warranty
